

Join The Woodstown-Pilesgrove Regional School District Listserv!

When you join the district or a school listserv, you'll receive informational e-mails about upcoming events, awards, and other important community information. The listserv is a portal for parents and guardians as well as community members of the Woodstown-Pilesgrove Regional School District. The service is designed to expand communications and promote collaboration.

It is our plan to use this service as our primary means of communication in lieu of what we used to send via mail. Also we will utilize this program to supplant much of the information we currently transmit via Connect-Ed (phone notification). We will only use Connect Ed for emergency and high priority information. Starting this summer, all information, unless of a personal nature, will be transmitted using Wolverine News. So sign up now and begin getting your Wolverine News!

To join the LISTSERV, all that one must do is:

1. Visit www.woodstown.org and click on the listserv logo at the top of the page.
2. Enter your email and click the "submit your information button."
3. You should receive an email from LISTSERV asking you to follow the provided link to complete your subscription. The purpose of this email is to confirm your request to be added to the list.

That is it! You are signed up.

You may unsubscribe from the list at any time by following the same procedures outlined above and choosing the unsubscribe radio button.

Virtually any interested party who would like to receive current Woodstown-Pilesgrove Regional School District information can use this listserv to become part of the school community.

Please pass along this information to anyone that may be interested in joining the list. If you have any difficulty in subscribing, please send an email to pappas.g@woodstown.org
